## PROFESSIONAL SUMMARY

Computational Data Science M.S. candidate targeting Senior Data Analyst at Capital One Financial Corporation, with experience in SQL, Python, data quality, KPI reporting, dashboards, statistical analysis, and business intelligence. Proven ability to transform operational and engineering datasets into actionable insights.

## EDUCATION

|                                                                                                                                             |                    |
|---------------------------------------------------------------------------------------------------------------------------------------------|--------------------|
| <b>University of California, Riverside - M.S. Computational Data Science   GPA: 3.78/4.00</b>                                               | Expected Jan 2027  |
| Coursework: Machine Learning, Data Analytics and Exploration, Databases, Artificial Intelligence, NLP, Data Mining, Data Ethics             |                    |
| <b>College of Engineering Pune (COEP) - B.Tech. Electrical Engineering   GPA: 7.86/10</b>                                                   | Graduated Aug 2024 |
| Coursework: DSA, Probability & Statistics, Embedded Systems, Analog/Digital Electronics, PCB Design, Circuit Integration, System Validation |                    |

## TECHNICAL SKILLS

**Programming & Databases:** SQL, Python, PostgreSQL, MySQL, SQL Server, PySpark, R, MATLAB, C/C++  
**Analytics & Statistics:** Data Quality Analysis, Statistical Analysis, Dashboard Development, Data Validation, Exploratory Data Analysis, KPI Reporting, Business Intelligence, Anomaly Detection, Feature Engineering, Machine Learning, Model Evaluation, Root Cause Analysis  
**Business & Operations:** Manufacturing Analytics, Operations Analytics, Production Analytics, Supply Chain Analytics, Inventory Analytics, Procurement Analytics, Process Improvement, SAP  
**Tools & AI:** Pandas, NumPy, Scikit-learn, Docker, Hadoop, Flask, Git, Matplotlib, Gemini API, NLP, Large Language Models

## PROFESSIONAL EXPERIENCE

|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |                     |
